Chicago "Bears" Make Another Raid on Wheat and Force Prices Still Lower.

July Pown 1 Cent and April and May 1 1-2-Corn and Oats Also Raided Down by Free Selling-Provisions Off a Few Fractions.

MONEY, STOCKS AND BONDS.

An Irregular and Feverish Market, with Few Changes at the Close.

NEW YORK, April 24.-Money on call was easy, ranging from 3 to 5 per cent., the last loan being made at 3, closing offered at 3. Prime mercantile paper, 5@7 per cent.

Sterling exchange quiet and sleady at \$4.8514 for sixty-day bills and \$4.1812 for

The total sales of stocks to-day were 413,079 shares, including the following: Atch-1son, 20,270; Lackawanna, 22,550; Erie, 6,300; Louisville & Nashville, 14,513; Missouri Pacific, 6,630; North American, 4,870; Northern Pacific, 5,582; Northern Pacific preferred, 26,670; Reading. 4,125; Richmond & West Point, 3,545; St. Paul, 74,485; Union Pacific, 14.625; Wheeling & Lake Erie, 5,500;

Wheeling & Lake Erie preferred, 3,245. The stock market to-day has been feverish and irregular in its movements throughout the day, and the final outcome of the day's business is generally only small changes in either direction. The restraining influence to-day was the further engagement of over \$1,600,000 gold at the subtreasury for shipment to Europe to-morrow, and this checked a most promising upward movement when in full play. The bullish feeling is almost entirely based upon the excellent outlook for the cereal crops for the coming season, however, and other influences of an adverse nature receive little attention, except for a "bears" and sold-out "bulls" a chance to get back a few of the stocks sold at lower prices, the real buying is not permanently checked. The arrival of Mr. Gould was expected to give the market a lift, but out-side of the unusual strength shown at times in Wabash preferred there was nothing to show that either he or his friends were specially active in the market. London was a moderate seller in the early trading, and especially of St. Paul and North-ern Pacific preferred, but the latter stock recovered with the remainder of the list, and later in the day displayed even more strength than the general list. The West sent liberal buying orders, and London became a buyer after the first selling movement had culminated, which was Pacific preferred, Sugar and Rock Island. Sugar was rather weak all the way out, and was the only one of the industrials to take a prominent place in the dealings, though the others were inclined to follow it in temper, and remained drooping all day long. St. Paul and Northern Pacific were special features of the day, the trading in the former being extremely large, and the contest in it specially well maintained on both sides. The market gradually outgrew the effects of the gold shipment, however, and while the general list was not specially active or strong, several stocks made material advances. Prominent among these were Lackawanna, Ontario & Western and Northern Pacific preferred. Notwithstanding that the "bears" attacked the list at every opportunity, the "bulls" maintained the ascendancy, and it was a subject of remark that the market assumed the same appearance as it had in 1879 when prices advanced from 50 to 75 per cent. The fact is that the "bulls" have been gaining recruite daily, and the volume of business is now so large that the attacks of the "bears" on some stocks have little effect upon the general list. The market developed marked strength in the last hour, and again prices were lifted materially and finally closed at a shade under

the best prices, but strong and active. Railroad bonds were again moderately active and displayed the same moderate strength in tone as usual of late. But while there was great activity in the Oregon Improvement fours, with a wide distribution of the remainder of the business, there was few material changes in quotations, though they were all in the direction of higher prices. The sales of all issues reached \$1,-

Government bonds were dull and easy. State bonds were entirely neglected.

TRADING AT CHICAGO.

All Articles Still Tending Downward-Wheat

from 1 to 112 Cent Lower. CHICAGO, April 24.- The wheat market was unsettled and nervous to-day, and was subject to frequent and sharp fluctuations. Uncertainty as to the situation growing ont of conflicting cables made operators cautious, and resulted in the transaction of a smaller amount of business than on vesterday. The net result of the day's trading is a loss in value of about 1 cent in the July option, and of 112 cent in April and May. July, the ruling option, opened at \$1.0934@1.101s, against \$1.1038@1.1012 at the close yesterday, and soon touched \$1.0958. Houses with foreign connections were generally sellers, though they gauged their sales with care to avoid a heavy decline. A "bear" syndicate which attempted to break prices for them was brought up with a round turn. While the syndicate did not come to grief, it nevertheless was fright-ened enough to lie still for some time. After going to \$1.0958, July railied quickly to \$1.104, but was loaded with a large lot of property put out by Schwartz, Cudahy, Linn, George Smith and by some of the elevator people, and the market broke to \$1.0912. Bigelow sold heavily at this price, but did not succeed in breaking values further. Purchases by Giflord White & Co., and others who were acting for the foreigners, finally frightened the small scalpers, and in their efforts to cover they put the price up to \$1.1038@1.1012. Then the "longs" resumed their unloading tactics, and the price sagged off to \$1.10, where it remained for some time. At last the "bears" plucked up courage for another raid, and their sales broke the price to \$1.0919. Toward the close July rallied to \$1.10, on cables reporting higher Berlin markets and on a dispatch saying Roumania would prohibit exports of maize because of depleted stocks there. Just before the close there was another break, and the market closed easy at \$1.093, @1.0912. The London closing market was 6d@is 3d per quarter lower on wheat. Paris was 20@75 centimes higher on flour and 30 centimes higher on deferred futures of wheat. Near futures were 10 centimes lower. Paris reported cold weather in France, but the weather in this country was fine, and advices from St. Louis said that the wheat was already heading in the Indian Territory. Stauffer, Cudaby and Bloom started a successful raid in corp. They had a large and rather enthusiastic following. July was broken from 67% down to 661sc, but was turned up to 67c on liberal purchases by Hutchinson. Receipts were liberal estimates for to-morrow were large and there were reports of heavier loadings of grain at country stations. There was free selling of

firm on the reported firmness of hogs at the stockyards, but speedily weakened on free selling, and after fluctuating frequently within a moderate range, closed with a loss of 15@1712e for pork, .021, @.05c for lard and .0212e for ribs. The leading futures ranged as follows:

Options. | Op'ning Highest. | Lowest. | Close \$1,12¹4 1,12³4 Wheat-April. 1.1012 Oats-May 51¹ 12.70 13.07¹ 13.50 13.00 Pork-May .. 13.40 13.75 13.40 13.75 7.17¹2 7.42¹2 6.37¹2 July.... Sept.... Sh'tribs— May

Western factory, 12@28c; Elgin, 2712c. Cheese quiet and nuchanged. DUN & CO.'S REVIEW.

Unhealthy Activity Caused by Speculation-

Slight Advance in Prices-Tin Lower. NEW YORK, April 24.-R. G. Dun & Co.'s weekly review of trade says: But for speculation this would have been a comparative dull week. But sales of 112,000,000 bushels of wheat in this market and 680,000 bales of cotton, and 2,243,000 shares of stock have supplied a certain activity, though not of the most wholesome kind In the interior business has been somewhat improved, but many causes combine to prevent great activity. Prominent among these is the reaction from excessive real estate

speculation and building which have prevailed for years in some quarters. Thus, at Philadelphia a depression is explained by the fact that 60,000 new houses have been added in eight years. The strikes in building trades tend to cause duliness where activity had been expected and the threatened strike of coal miners in several States also retards operations. But on the whole the volume of business is large for this season, in amount of bank exchanges, close up to that of corresponding weeks last year, and east-bound shipments from Chicago for three weeks have been 200,071 tons, against 281,018 for the same weeks of 1890. The symptoms are those of waiting rather than of reaction. The merchandise movement at Boston has been fair, in wool lightly larger, with

out much change in goods, or in boots and shoes, with better reports from agents, while leather and hides are quiet. At Philadelphia the coal and iron trades are more active; worsted mills are running full time at good prices. At Hartford it is noted goods do not justify the higher prices said to be asked for the increased clip of wool. At Baltimore trade is only fair, but manufactures active and at Cleveland better weather brings some improvement, with unusual activity in manufactured iron. Cincinnati also notes improvement and great activity in building and materials, and Detroit finds better trade with better country roads. At Chicago, wool receipts gain a third over last year and wheat receipts are larger, but decrease appears in flour, corn, meats, lard and hides. Dry-goods-sales equal last year for the same week, and sales of clothing and shoes show increase. The grip retards trade at Milwaukee, but further improve-ment is seen at St. Louis. Trade is fair at Kansas City and Omaha and better at Denver. Cotton is quiet and lower at New Orleans and sugar active and lower, general trade being fair. At Savannah, trade slackened slightly and is rather dull at Jacksonville, but extensive investments in

activity in the parts of the States where there are deposits. The money markets are generally undis-turbed and comparatively easy. Collec-tions improve slowly. The treasury continues to pay out more than it takes in. though but little this week, the net addition to the circulation being about \$800,000. There are renewed signs of foreign selling of securities on the recent rise, and it is not to be expected that large gold exports in the summer can be prevented, unless breadstuffs so decline as to permit a free move-

phosphates, with heavy shipments, cause

ment prior to June. Wheat has risen 23 c with enormous speculative transactions, and has been even higher, the markets of late showing heavy realizing. Yet exports from Atlantic ports "long" oats, led by Bartlett, Frazier and Harvey, which caused a break of 340%c. Prices hardened a little later in the day, but were 140%c lower at the close. The opening in the provision market was rather leading of the provision market was rather leading of the selling of the exports from Atlantic ports and Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.44-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and May, 4.45-64d, value; April Alabera from Atlantic ports and Alabera from Atlantic p

the chief excuse given for the speculative advance, but it is early to decide what. crops other countries will harvest four months hence. Corn has de but oats are higher. The continued great receipts o cotton have depressed the price 1/16c, and oil is 2c lower, but coffee is 1sc higher. The offerings of European refined sugar seem to have called American refiners to order very quickly and without any change in the process of the continued line.

in the price of raw sugar, refined has dropped from 4c to 12c.

The change in average prices of all commodities has been but a slight advance for the week, in spite of the rise in wheat, for manufactured products tend lower on the whole. Heavy liquidations put tin down to 1912c and lead to 4.15c. and large importations cause tin-plate to be offered at some decline. The coal trade does not improve. though agents have fixed upon 2,500,000 tons as the output for May. The Lehigh ignores the decision in the Coxe case, but the threats of strike in bituminous mines

affect the prospect.

The business failures occurring throughout the country during the last seven days number 205 as compared with a total of 251 last week. For the corresponding week of last year the figures were 218.

TRADE IN GENERAL

Quotations at Philadelphia, Baltimore, Cincinnati, St. Louis and Other Points. st. Louis and Other Points.

St. Louis and Other Points.

St. Louis, April 24.—Flour weak but unchanged. Wheat opened firm but unsettled, being 12c up for May, 18c higher for July, but 18c down for August. There was some strength shown, but immediately after the opening values declined rapidly, and continued easy, but toward the close figures were 140 78c lower than yesterday; No. 2 red, cash, \$1.087801.0914; May, \$1.0912 01.1012, closing at \$1.0934; July, \$1.0438 01.0558, closing at \$1.0458; August, \$1.02120 1.0312, closing at \$1.025801.0234. INDIANAPOLIS MARKETS. Trade a Little Off-Prices Steady and Firm

as a General Rule.

INDIANAPOLIS, April 24.- In most de partments there was a little lull in trade to-day, the cooler weather probably being the cause therefor. In prices there were no important changes. The poultry, hide and provision markets were the only departments in which a weaker tone to prices is noticeable. The flour market is very firm indeed, notwithstanding that wheat options were weaker yesterday, with reports bearish. But the tone of cables from abroad was very strong, and the buyers of flour in this country are thoroughly alarmed and bidding up to nearer ful quotations than at any time this season Flour was further advanced, and the highest prices for a very long time were reached In groceries there is a fair movement. In speaking of the advance in raw sugars, the Boston Journal says: "There are outside influences at work which may at any time precipitate a change for better or for worse upon our sugar market. We refer to the prevailing condition of affairs in the large beet-root sugar countries and the possi-bility of financial troubles, together with increasing warlike rumors and conversations, which may or may not have any substantial basis for existence. The daily peet-root sugar quotations will have especial interest to the sugar trade for the next few months, and a more important bearing than usual upon our markets." The hardware men, the iron-dealers and paints and oil merchants are very busy, and the dealers in tinners' supplies speak of trade as improving. The seed men are having a good trade, but are not as busy as ten days ago.

Is not an experiment: It has been tested and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP
"is a necessity." Don't let your dealer
give you some other kind, if he hasn't
Santa Claus, but insist on having only SANTA CLAUS SOAP. N. K. PAIRBANK & CO., Mfrs., Chicago, III.

WOLSELEY ON SHERMAN

The Journal has secured a series of articles from the pen of

LORD WOLSELEY.

They will treat of the Civil War in the United States and the part taken therein by the late Gen. SHERMAN. The views and conclusions of the famous English soldier are not likely to be at all times in harmony with those entertained by American soldiers, but it is certain that General 750.00 | Wolseley's articles will be read with close interest by many thousands of the ex-soldiers of the Union. The first of these articles will appear in the 38,000.00 SUNDAY JOURNAL of APRIL 261 150.00 And will not be found in any other
